

## NEW SITE IDENTIFICATION

### Part A – To Be Completed By Observer

1. Person Initiating Report: Jacob Harris

Phone: 526-1877

Contractor WAG Manager: Douglas Burns

Phone: 526-4324

2. Site Title: 008, Debris Near Intersection of Highway 33 and 22

3. Describe the conditions that indicate a possible inactive or unreported waste site. Include location and description of suspicious condition, amount or extent of condition and date observed. A location map and/or diagram identifying the site against controlled survey points or global positioning system descriptors shall be included to help with the site visit. Include any known common names or location descriptors for the waste site.

There is a debris pile less than 100 yards north of Highway 33; 3.2 miles east of the Highway 33/22 intersection and 1.6 miles west of the Lincoln Rd/Highway 33 intersection. During the August 1999 site visit, the observed surface debris included a wood stove, rusty cans, barb wire, wood, and 2 unidentified metal pipes (2 ft by 4 in diameter). The surface debris encompasses an area approximately 30 ft by 30 ft. A depression 6 ft deep by 15 ft diameter is adjacent to the surface debris. The GPS coordinates for this site is E338047.102 by N777548.248. The reference number for this site is 008 and can be found on the summary map as provided.

### Part B – To Be Completed By Contractor WAG Manager

4. Recommendation:

- ☒ This site meets the requirements for an inactive waste site, requires investigation, and should be included in the INEEL FFA/CO Action Plan. Proposed Operable Unit assignment is recommended to be included in the FFA/CO.

WAG: 10

Operable Unit: 10-08

- ☐ This site DOES NOT meet the requirements for an inactive waste site, DOES NOT require investigation and SHOULD NOT be included in the INEEL FFA/CO Action Plan.

5. Basis for the recommendation:

The conditions that exist at this site indicate the potential for an inactive waste site according to Section 2 of MCP-3448 Reporting or Disturbance of Suspected Inactive Waste Sites.

The basis for recommendation must include: (1) source description; (2) exposure pathways; (3) potential contaminants of concern; and (4) descriptions of interfaces with other programs, as applicable (e.g., D&D, Facility Operations, etc.)

6. Contractor WAG Manager Certification: I have examined the proposed site and the information submitted in this document and believe the information to be true, accurate, and complete. My recommendation is indicated in Section 4 above.
